Two Enjoyable Games

Two risks from Vulcan paid a return visit to Champion on Wednesday afternoon and went home victorious. Rev. John Branton defeated Rev. Peter Dawson 12-7. Mrs. Dyce Allan defeated Mr. Frank Chapin 9-7. Good fellowship prevailed, as the girls say "that is the thing in curling".

Many Guests Enjoy Ladies Aid Valentine Tea

Over forty guests attended the delightfully arranged valentine tea held Friday afternoon at the home of Mrs. J. B. Branton. Mrs. Branton assisted by Mrs. Ulrich received the guests. Red carnations and tapers decorated the tea-table at which honors were shared by Mrs. E. Latiff, Mrs. A. W. Jopling, Mrs. Dawson and Mrs. McIntyre.

Obituary

The death occurred suddenly Thursday, Feb. 11, of Alfred Thomas Wilson at the home of his daughter, Mrs. J. D. McDougall. The deceased was 86 years of age. Born on June 17, 1847, at Thuring Village, Lincoln, England, he came to Canada at the age of 17. On Mar. 23, 1873 he married Janet Furnell at Angus, Ontario, the couple later having to Fort William, Ontario in 1881. After seventeen years residence in Fort William, the family moved to Duluth, Minnesota, where Mrs. Wilson passed away and was laid to rest on Feb. 21, 1910 in the family plot at Fort William.

On May 29, 1911 the deceased came to Champion to the home of his daughter, where he resided till his demise.

The deceased is survived by one sister of Hull, England; three sons have predeceased him and four remain, George, Fort William, Carl Spokane, William, Seattle and Charles of Champion, also one daughter, Mrs. Nellie McDougall of Champion.

The funeral took place Saturday afternoon from the Community Hall, interment being made in the Champion cemetery. The services were conducted by Rev. Peter Dawson.

The Pall Bearers were: P. Patterson, Wm. Ulrich, H. Higgins, L. Groves, Fred Wier and Neil McLeod.

Anniversary Night March 28th

The annual meeting of the Shareholders of the Champion Community Hall Limited was held in the Hall on Saturday afternoon February 13th. A very good attendance of shareholders being present. J. M. Moffatt in the chair, H. Cooper acting as secretary.

After a short discussion about the management of the Hall, a hearty vote of thanks was given the retiring directors for their services during the past year. Nominations for directors were then called and the following were elected: A. W. Jopling, H. E. Gill, H. J. Higgins, J. M. Moffatt, W. B. McLean and R. A. Chouinard.

It was decided to hold the annual Hall Anniversary night on Monday, March 28th, when every organization in the district will be asked to help make this night the big success it usually is.

Old Time Dance February 19th

An Old Time Dance will be held in the Champion Community Hall on Friday Feb. 19th. Music by Champion Old Time orchestra. Personnel: Barney Hummel, Piano; F. Hamilton, Violin; J. Little, Piano Accordion; Bill McLeod, Violin; Fred Greig, Traps and Drums. The music that kept the Old Times out till they were late. Admission 35c per person. Prizes for Community Hall Funds. Dancing from 8 o'clock till 7. Step out, everyone and show these boys that you appreciate their music.

Obituary

A. H. Peatman 83 years of age a former resident of Champion and district for the past twenty-six years, passed away in the General Hospital, Calgary, Saturday Feb. 13. Burial took place in Calgary, Monday Feb. 14.

Women's Institute

On Tuesday afternoon February 14th the Women's Institute met at the home of Mrs. J. M. Moffatt. There was a good attendance of members and guests, one new member joining. Much merriment was caused by the humorous Valentine quotations in answer to the roll call. Following a discussion on methods of raising money, a decision was made to interview the Vulcan Dramatic Society with a view to sponsoring their play in Champion. A slight innovation was made when it was decided to present the latest W. I. babies, the Hummel twins with silver mugs instead of the usual spoons.

At the district conference to be held in Lethbridge on March 9th and 10th, our local branch will be represented by Mrs. E. C. Latiff, who will act as representative as an alternate delegate. Mrs. J. A. Campbell of Milk River, the new District Director No. 4, who will preside at the conference will visit Champion at their regular meeting on Tuesday June 14th.

At the loss of the business proceedings, an interesting programme included Mrs. W. F. Cameron's address, "Women's Institutes: A Forecast", read very impressively by Mrs. R. I. Baker. This address delivered to the 1930 Provincial Conference held in Calgary, forecasts the progress which the next decade will bring to the Women's Institutes, and discusses many problems of interest to Women. Current Events, was the subject of a very able commentary by Mrs. Dawson. Between addresses Ruth Depue and Lona Stephenson contributed musical numbers which were much appreciated by the audience. A very dainty lunch, in the traditional Valentine motif, was served by the hostess and Mesdames Clever and Bozarth assisted by Miss Bara and Dow.

Several W. I. members from Champion returned to Kitchikan on Friday afternoon the 11th inst., where they were royally entertained by the ladies of that branch. At the home of Mrs. Boone, Games and singing contests were the order of the day; at the close of which delightful refreshments were served. The following were provided by the hostess: Mesdames D. Smith, Cowell, and Miss Baker were prize winners, Mrs. Chouinard being the lucky recipient of the consolation. Those attending were: Mesdames R. I. Baker, Chouinard, Austin, Williamson, Lucinda, Cowell, Watts, D. Smith and the Mesdames Young and Ruth Baker, also Rev. Branton to whom, with Mesdames Lucinda and Watts, thanks are due for the means of conveyance.

Card of Thanks

We wish to thank all those who so gratefully rendered assistance and for kind sympathy shown during our recent bereavement.

Charles Wier, Mr. and Mrs. J. D. McDougall and family.

Mrs. Freeze Entertains At Dinner Bridge

Mrs. Freeze entertained at a dinner bridge on Saturday evening. Valentine decorations and favors made an attractive setting, while red carnations and red candles centered the dinner table. Prizes were won by Mrs. B. Anderson and Mrs. Cameron. The guests present were: Mrs. Heil, Mrs. Anderson, Mrs. A. W. Jopling, Mrs. Furrer, Mrs. Clever, Mrs. Bell, Mrs. Beaudry, Mrs. Campbell, Mrs. McFall, Mrs. Bozarth, Mrs. Latiff, Mrs. Clarkson, Mrs. McLean and Mrs. Williamson.

Ladies of Royal Purple Hold Shower

A delightfully arranged shower was held in honor of little Lucille and Ramon Hummel at Mrs. E. Latiff's on Thursday. The gifts were arranged in a delightfully decorated basket and presented to Mrs. Hummel. After a social afternoon refreshments were served.

Mrs. Boose Entertains Women's Institute

Among the interesting affairs of last week was the social afternoon spent by members of the Champion W. I. at the home of Mrs. Boose at Kitchikan. About forty members attended and a delightful time was had by all.

"Where They All Go."

Mixed Farming To Solve Many Difficulties Of Western Farmers Declares Hon. Robert Weir

In balanced farming lies the solution to the difficulties confronting western Canada farmers, declared Hon. Robert Weir, Federal Minister of Agriculture, in an address before the Canadian Club at Toronto.

Outlining the progress of western farming from its inception until the present, the Minister made a strong appeal for the support of the east, spoke optimistically of the manner in which the western farmers had faced disaster and expressed the belief that, through mixed farming, the west would soon return to its customary state of prosperity, thus benefitting the remainder of Canada.

As far as possible, he said, the government wanted to make each farm a self-sustaining one. He suggested the planting of ten acres of land with a hardy, drought-resisting grass. Ten acres, if properly sheltered, would hold moisture enough to raise food for enough stock to maintain the farmer and his family during periods of distress.

He did not believe that quite so much grain would be grown in the western provinces in the future. The northern section of those provinces were better adapted to the raising of livestock. There would be less expense in raising cattle in the west than there was in the east. Poultry too he maintained, could be more profitably raised in the west than the east.

Not all sections of the western provinces, he pointed out, were adapted to the raising of livestock, but in those sections which were adapted, he felt this action should be taken.

With the aid of a map Mr. Weir outlined to his audience the extent of the drought areas. In Saskatchewan, he declared, 75 municipalities had had crop failures for three years in succession. The area was one of approximately 25,000 square miles of the richest wheat growing country in the world. During the drought, not one green thing was grown for man or beast. As a result the government was providing relief for 248,000 people.

A provincial relief commission was operating without remuneration. And this commission, he went on, was operating at a cost of 3½ cents per dollar of administration. "It had been estimated, he said, that it cost 50 cents to administer every dollar for relief."

He paid a strong tribute to the westerners, whom he said had faced the tragic drought situation with courage and hardihood. They had refused to have charity forced upon them. They could not borrow money. But they gave their word for repayment of all assistance advanced to them. "Their determination to take no charity was one of the brightest things in the disaster," he said.

"I have absolute faith in the west. No one knowing the westerner as I do could have any doubt of that. They are not of the ilk to quit. They do not ask for something for nothing. They will win through in spite of all obstacles. I know you will do it with your power to hasten the day when again the billions of wealth of the west will flow through the channels of trade into the coffers of the east. I think the path is clear."

Mr. Weir was introduced by Mr. Hon. Arthur Meighen, former Prime Minister, who also paid tribute to the relief commission, which he said, was working admirably.

A Worth While Career
So many married women are restless for a career. If running a home and raising a family isn't a career, then the professions as well as business, politics and the arts are just nothing at all by comparison. A wife and mother is about the most important individual on this earth. If she has the wisdom to hold her head high enough.

Tomatoes From Bahamas

Shipments To Be Made During Off Season In Canada

Word comes from Nassau, in the Bahamas, that Canada's supply of tomatoes for the next three months will come from that island. That an initial shipment of 3,000 crates has been made to this country, and that it is the intention to ship not less than 5,000 crates a week. This is a new development which follows a trade entente between Canada and the West Indies, and means that during the off-season, when tomatoes are not produced in this country except in very limited quantities, instead of getting them from the United States, they will come from the Bahamas, our sister member of the British Empire. It is worthy of mention in this connection that in the Bahamas they are not discounting Canadian currency, but are taking it at its par or face value, a matter which should not be overlooked.

It has been aptly pointed out that these products are grown on British soil, by British subjects, and are handled by Canadian ships through Canadian ports, and that their destination by Canadian railways, an excellent all round argument in favor of a ready market in this country.

Sound Plan To Follow

More People Should Adopt Homely Philosophy Says Negro

The story is told of a colored man who entered a store in the small town in which he lived. He was known to the merchant as an honest and hard-working man. His quest on this occasion was the purchase of a blanket, and he had a fairly well fixed idea of how much he could afford to pay.

The merchant showed him something better than he was looking for and told of its superior quality, all of which the negro customer admitted, but said that he could not afford the price, adding by way of explanation: "I never hang my hat higher up than what I kin reach to." And there is quite a good deal of homely philosophy in that saying. The colored man knew what he had in cash, and he had no desire to over the dealer anything as a second or third payment.

The trouble with a good many people, companies and nations, is that they have been hanging their hats so high they need a step ladder to reach them, and some person seems to have taken the ladder away.

Would Be Prepared

An Irishman, signing articles on board a ship, began to write his name with his right hand, and then changed the pen to his left hand and so finished. "So you can write with either hand, Pat?" asked the officer. "Yiss, sorr," replied Pat. "When I was a boy me father always said to me, 'Pat, learn to cut your finger nails with your left hand, for some day ye might lose your right hand.'"

Antique statue of Cupid, dug up in Italy, has a hand, both legs, a nose and an ear missing. Wouldn't that be an ideal ornament for the city park of Reno?

Turkey has restricted the importation of motion-picture films.

When The Power Goes Off

Only Time We Realize How We Depend On Electricity

We never realize to what extent we are living in an electrical age until the power goes off, and the folk have turned the switches on the electric range, but the kettle has not boiled, neither has there been heat in the oven. We have turned more than one electric bulb having failed to give forth the radiance. Those who have depended on motors to produce fire of some sort or another in the furnace have had to make the best of it and be thankful that the weather was not severe.

The vacuum cleaner and the radio have had to take a holiday; the toaster on the corner of the breakfast table has been good for nothing at all; in many homes the sewing machine has not run, and the curling tongs have failed to take on their accustomed heat—all because the power was off.

We can imagine of nothing more hopeless than a city newspaper office when the power ceases. The telegraph machine comes to a halt; it will tell us nothing at all of what is going on in the wide world outside with which it is so adequately connected with its far-flung connections. The typewriter ceases to type the metal in them, instead of becoming liquid for casting lines, remains as hard as stubborn metal can be; there can be no notes (or pages) cast for the big press, and the press itself will not budge nor spin a wheel. The man and staid there are who know all about these machines. They can speed them up when it comes close to press time; they can doctor them when they get out of condition, but they can do nothing at all when the power goes off.

Learners never can tell us very much about electricity. To be sure they can use it and harness it and all that. But there is more adequate defining in these two words "Power's off" than in anything we ever read or heard about electricity. Then it is for us to begin to realize how utterly dependent we have become on this strange force which we get from the wires which men have strung for us all over the country.

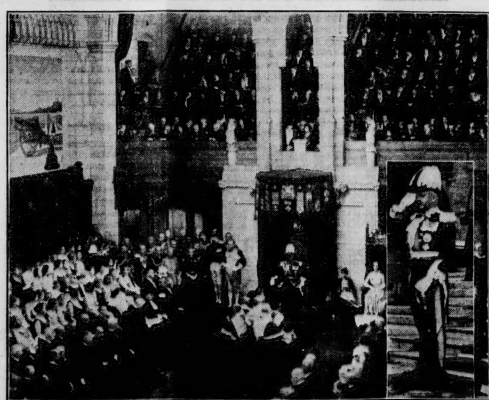

Canada's Northland

Modern Methods Of Transportation Bringing Northern Area Close To Civilization

The radio and the airplane are bringing about changes in Canada's Far North that were scarcely dreamed of 20 years ago. Time and space are being obliterated, and distant outposts are being securely linked to civilization. Regions that were considered worthless, a comparatively short time ago—and still would be if it were not for man's inventiveness—are beginning to be utilized. What further advances the next few decades will show no one can prophesy. But if future progress is made at the rate at which it is being pushed forward today, the Far North of Canada will be no distant spot but a very different country from what it is now.

The tiny planetoid Kroz, only about 20 miles across, is valuable to science in determining more accurately the distance of the earth from the sun and stars.

PARLIAMENT OPENS WITH SPLENDOR AND TRADITIONAL CEREMONIES

The main picture shows the scene in the Senate Chamber of the Canadian House of Parliament when His Excellency the Governor-General opened the second session of the Canadian Parliament. His Excellency the Countess of Beaulieu is shown seated on His Excellency's left, while the Senators and beautifully gowned ladies occupied the seats on both sides of the Upper Chamber. When the photograph was taken the Right Honourable R. B. Bennett, Prime Minister of the Dominion, was standing on the dais on the right of the Governor-General, making a short speech. Inset shows the Earl of Beaulieu taking the salute from the Guard of Honor on his arrival at the Parliament Buildings to perform the opening ceremonies.

American Newspaper Tells Why The United States Must Help To Settle The Reparations Question

Why must the United States help to settle the reparations question? The answer is set forth in an article appearing in the New Republic, published in New York, and is as follows:

Because, unless reparations are cancelled, Germany cannot recover. If Germany does not recover, American investments abroad will be further imperilled, and Europe will not be able to resume her pre-depression purchases of our products. But reparations cannot be cancelled by Britain unless her debt to us is correspondingly reduced; for that would complete her ruin. And France will not cancel reparations, even the unconditional part, unless her corresponding payments to Britain and the United States are simultaneously repaid. Yet by France and Britain the moratorium privileges of their debt agreements with us would merely postpone the reckoning and leave confidence unsettled.

Why is the United States responsible in part for lack of monetary stability abroad? The outflow of gold from Great Britain and Germany, which undermined the gold standard of the one and the credit of the other, was caused in part by the obligation to pay war debts and reparations, irrespective of the elements of the international balance of payments.

It was caused in part by the inability to create a sufficiently large export surplus of goods, an inability due largely to tariff barriers, especially that raised about the United States, and increased by the Smoot-Hawley tariff after the depression was under way.

Why cannot tariff wars be abated without reconsideration of the United States tariff?

Because, under present conditions, the United States is the ultimate creditor nation, which must be willing to accept a surplus of imports over exports if the international debts, public and private, are ever to be paid.

Why is the United States necessarily involved in armament discussion? Because we now spend on armaments more than any other nation, and far more than we did before the War. Because we have a navy second to none. Because Great Britain and France will not reduce their navies unless we reduce ours, and because land armaments will not be reduced unless sea armaments are reduced. Because reduction of armaments is, in general, tied up with international political stability, which is, in turn, largely dependent on economic equilibrium.

Why is it impossible to consider reparations alone, or war debts alone, or currency problems alone, or tariff alone? Why must all these things be settled as part of a coherent world policy?

Because, as the Wiggins committee said last August, and as the House committee report emphasized, "In recent years the world has been endeavoring to pursue contradictory policies, in permitting the development of an international financial system which involves the annual payment of large sums of money to creditor countries, while at the same time putting obstacles in the way of the free movement of goods." Besides, the statistics report points out, "If barriers are imposed to the free movement of goods, the world cannot readily adapt itself quickly to important changes in the course of the trade."

This arises from the fact that other elements in the international balance of payments, such as tourists' expenditures and immigrant remittances, are not very flexible. And so, "attempts to maintain the international balance of payments by means of larger and abnormal movements of gold have weakened the monetary foundations of many countries."

A New Venture

Salmon Packers Remove Skins Of Fishes

Trying a new venture last year, with apparently satisfactory results, one of the salmon canneries on the Fraser River in British Columbia skinned part of the sockeye catch before putting the fish through the canning process. The skins of the fish were sold at a price premium for the product.

Salmon are ordinarily canned without removal of the skin and the advantage obtained by the canner which has been experimenting with the use of skinned fish is said to be in the increased attractiveness and appearance of the finished product.

The skinning process, as outlined to officers of the Dominion Department of Fisheries by the manager of the cannery, is not difficult or complicated, and is estimated to cost about three cents per fish. It is carried out by hand workers with the use of a knife, and a wooden clamp tool, which consists of two pieces about three-quarters of an inch square fastened together at one end by a light metal bolt and rounded at the other end to fit the hand. After a cut has been made in the skin of the fish, near the tail, the clamp is attached and rolled toward the head. As it is moved along, it peels off a strip of the skin in each operation. After the fish has been cut into pieces of suitable size and packed in cans, the containers are sealed and the cooking process is carried out in the usual way.

Simply a point of incidental interest, it may be noted that sockeye skins weigh several ounces each. For example, ten skins weighed this summer averaged a little more than a third of a pound each.

The American Position

Collection Of War Debts Has Wrecked Prosperity Of The Country

Individually there is no pluckier, kinder, or shrewder man in the American Collectively there is no nation so incapable of understanding the trend of world events or of appraising world opinion. Consider the plight of the United States today. Her vaults are full of gold and her streets are full of workless men. Her warehouses are crowded with goods, but her order books from foreign customers are empty. The circle is complete. The collection of war debts and reparations has wrecked the prosperity of America on a Gold Coast all her own. History has no clearer example of the inexcusable law of cause and effect. Yet America refuses to face the truth. She will not or she cannot think straight. Why does not the Press of America take the situation in its own hands? If the politicians dare not speak the truth because of a presidential election in the offing, let the newspapers do so. When the officers of a ship on the rocks can only advance more rocks as a means of saving the vessel it is time for the command sailor to take for himself.—Daily Express, London, England.

"What does 'misuse of alcohol' mean?"

"Using it for purposes other than drinking."—Kavirattan, Oslo.

"All the Sky's a Screen"

Invention Of German Engineer Projects Motion Pictures On Clouds

The line, "all the world's a stage," has found a counterpart at Berlin, Germany in "all the sky's a screen." Dr. Mannheimer, an engineer, has invented an apparatus that makes possible the projection of motion pictures and advertising on clouds, or on mountainside, within a range of five miles. The projection machine is only four feet long. The light, by means of a mirror arrangement, is thrown as far as that of an ordinary instrument extended to the length of 150 feet, would.

On low-hanging clouds 250 feet above the earth, figures appeared 150 feet in size. The only requisite for a show is a cloudy sky.

AS EVERYONE KNOWS DAME FASHION PROMISES A BIG JACKETTED SEASON THIS SPRING

And isn't this a delightful model for a young girl? It is so simple besides being practical and smart.

Rose-red finely checked woolen was the first model. The blouse was a novelty knitted woolen in beige shade.

However, if you prefer to carry it out as a complete dress, fashion the blouse of the same fabric as the skirt. The jacket may contrast or match the dress.

It's very easily made. And the saving in cost is enormous.

Style No. 856 is designed in sizes 14, 16, 18, 20 years, 36 and 38 inches bust. Size 16 requires 3½ yards of 38-inch material for jacket and skirt with 1½ yards of 55-inch material for blouse and 1½ yards of 36-inch lining.

Spring is the most important, the most colorful season in fashions. All the more reason why you should have an authentic guide, such as our New Fashion Magazine, to show you the latest in fashions, colors, etc. Of course, there are styles for afternoons, for adults, for home wear, lingerie, children, etc.

Price of book 15 cents.

Price of pattern 15 cents in stamps or coin (coin is preferred). Wrap coin carefully.

HERBERT J. MABER

SOLICITOR, BARRISTER, NOTARY

VULCAN

At Champion Every Thursday.

K. R. McLean, R.O., of McLean

& Anderson, Sight Specialist of

224-8th Ave West, Calgary, will

make his monthly visit to

Champion, Friday, February

20, at the Drug store.

Mr. and Mrs. Bozarth, Mr. and Mrs.

Deputie, Mr. and Mrs. Clements and

Mr. and Mrs. McIntyre were among

those who motored to Salford Fri-

day night to the Masonic dance.

Two risks from Champion attended

the Little Bow Banquet held at

Blackie Friday of last week. The

risk skipped by J. S. Collins won

second place in the consolation event

Announcement!

I wish to announce that I have moved my barber shop into the building formerly occupied by Dr. H. N. Neal.

I thank my many customers for their patronage in the old stand and courteously solicit your patronage in the new shop, where I will render as distinctive a service as I have in the past.

A bath will be added to the equipment in the near future.

Commonwealth Barn Red

Your barn is a big investment

It is good business therefore to keep it

in perfect preservation. Barn Red is

expensive.

Commonwealth Barn Red costs less

than a coat per square foot, two coats.

Compare with the cost of new siding.

Give us a call and we will tell you what

the job will cost.
